

Stay

(Words : Fede Conte – Lyrics : Fede Conte)

Flying over fields of roses
That open their petals towards their shining smiles
We came here together, to learn through our lives

We cannot let go
Not lose one moment
Our cradle is being carried
By their gentle voices

Every move they make
Every word they speak
Carries emotion

Stay here with me
My world will freeze if you leave me
Stay here with me, if you please
Please...

Enchanted night
When I found the road towards you in my mind
Nothing needs to be spoken nor forgotten
While we lift the veil
From the secrets of their lives.

Every look he casts
Every wound that lasts
Carries emotion

Stay here with me
My world will freeze if you leave me
Stay here with me, if you please
Please...

Every step he takes
Every memory made
Carries emotion

Stay here with me
My world will freeze if you leave me
Stay here with me, if you please
Please...
